Good Morning Sean and Davis,

We completed surface sediment sampling three-point grab sample at SG-167. The target was under a dock so we were able to achieve a radius of under 100 ft at each grab location. Please see the attached photos for details.

Photo 1: Grab attempt 1

Photo 2: Grab attempt 2

Photo 3: Grab attempt 4. Please note that attempt 3 drug on a sidewall and was discarded without composition.

Photo 4: Compiling composite sample.

Photo 5: Collecting sample jars for analysis.

Please let me know if you have any questions.

Sincerely,

Joe Guggenberger, PhD, PE

Environmental Engineer

CDM Smith
